

v4--v7 absolute first-hit depth and training-oracle work

Rows use different frozen protocols and must not be joined into one curve

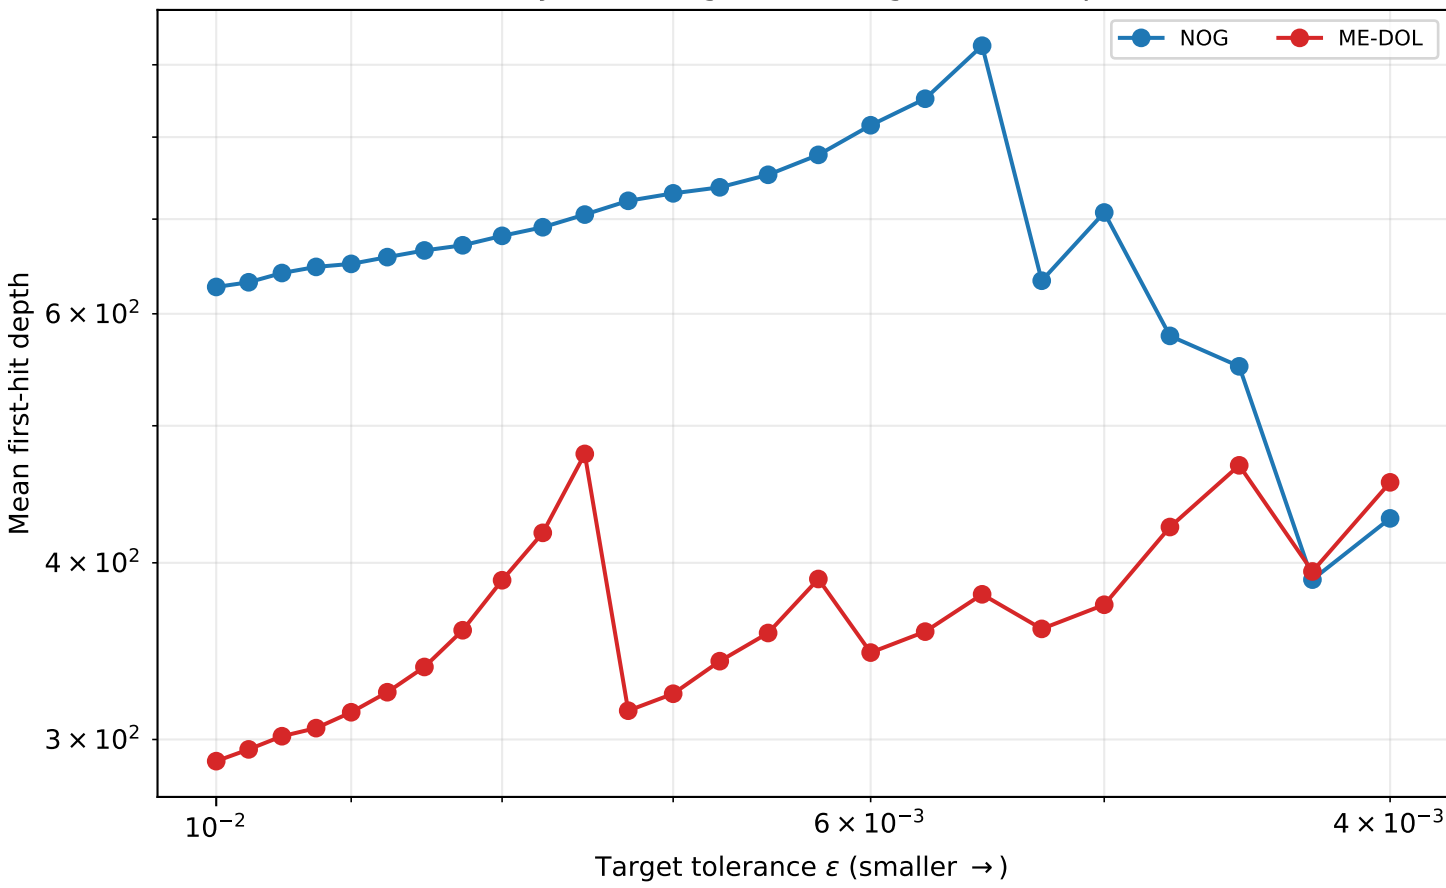

v4 fixed algorithms + matched-work batch: depth

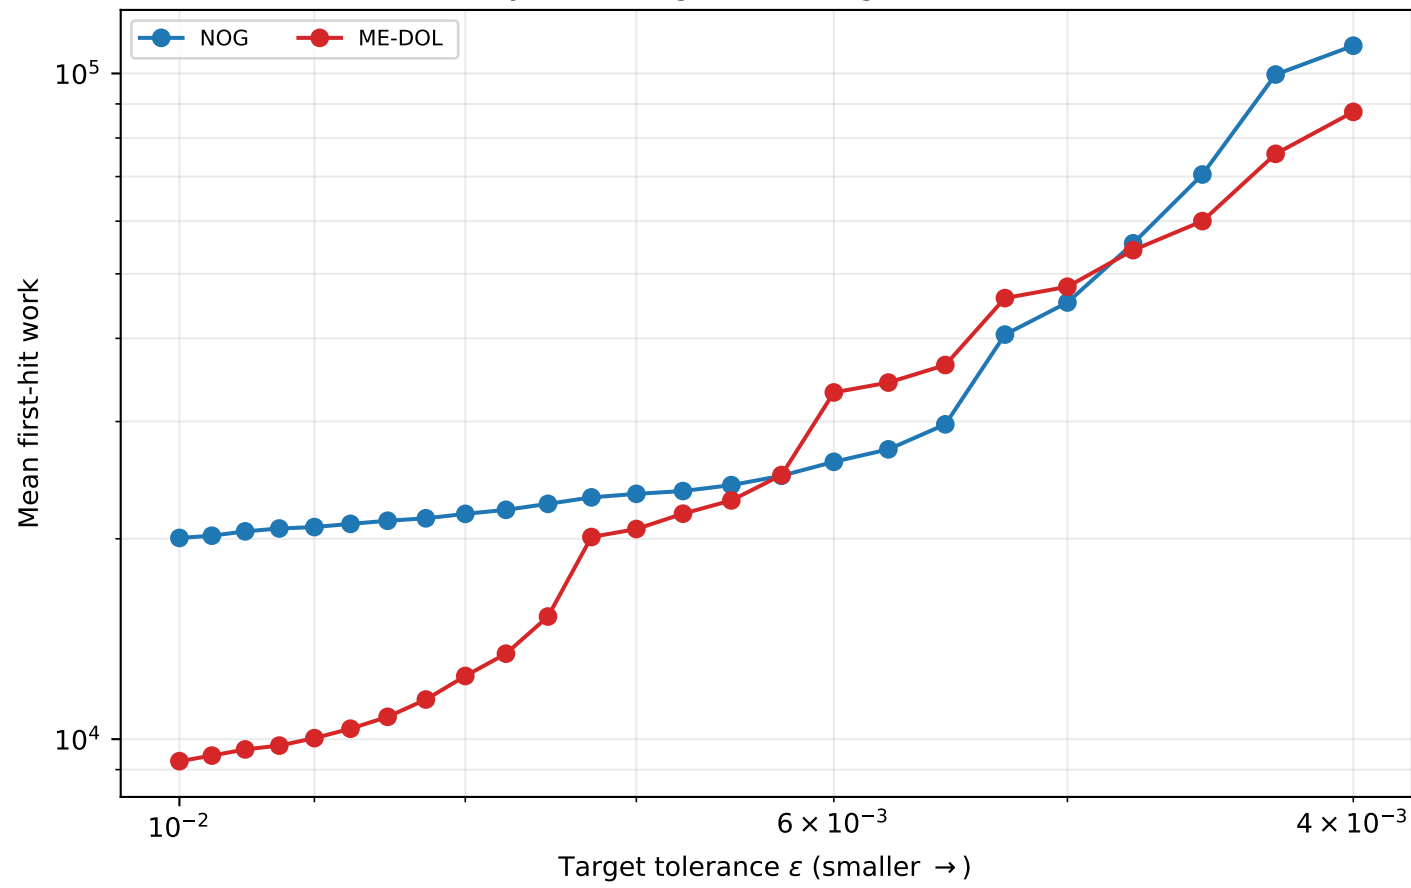

v4 fixed algorithms + matched-work batch: work

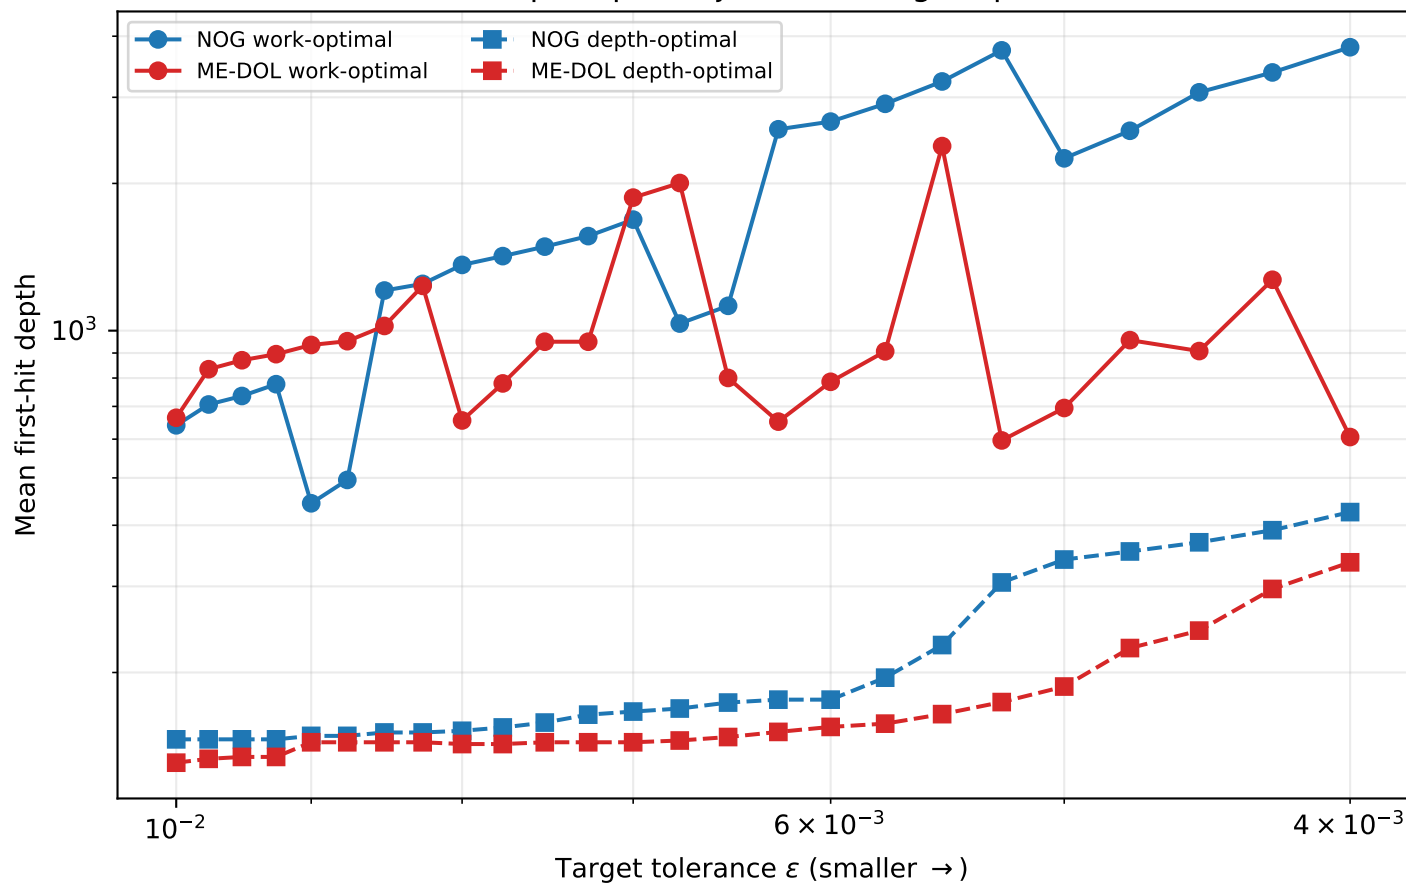

v5 symmetric global configuration: depth

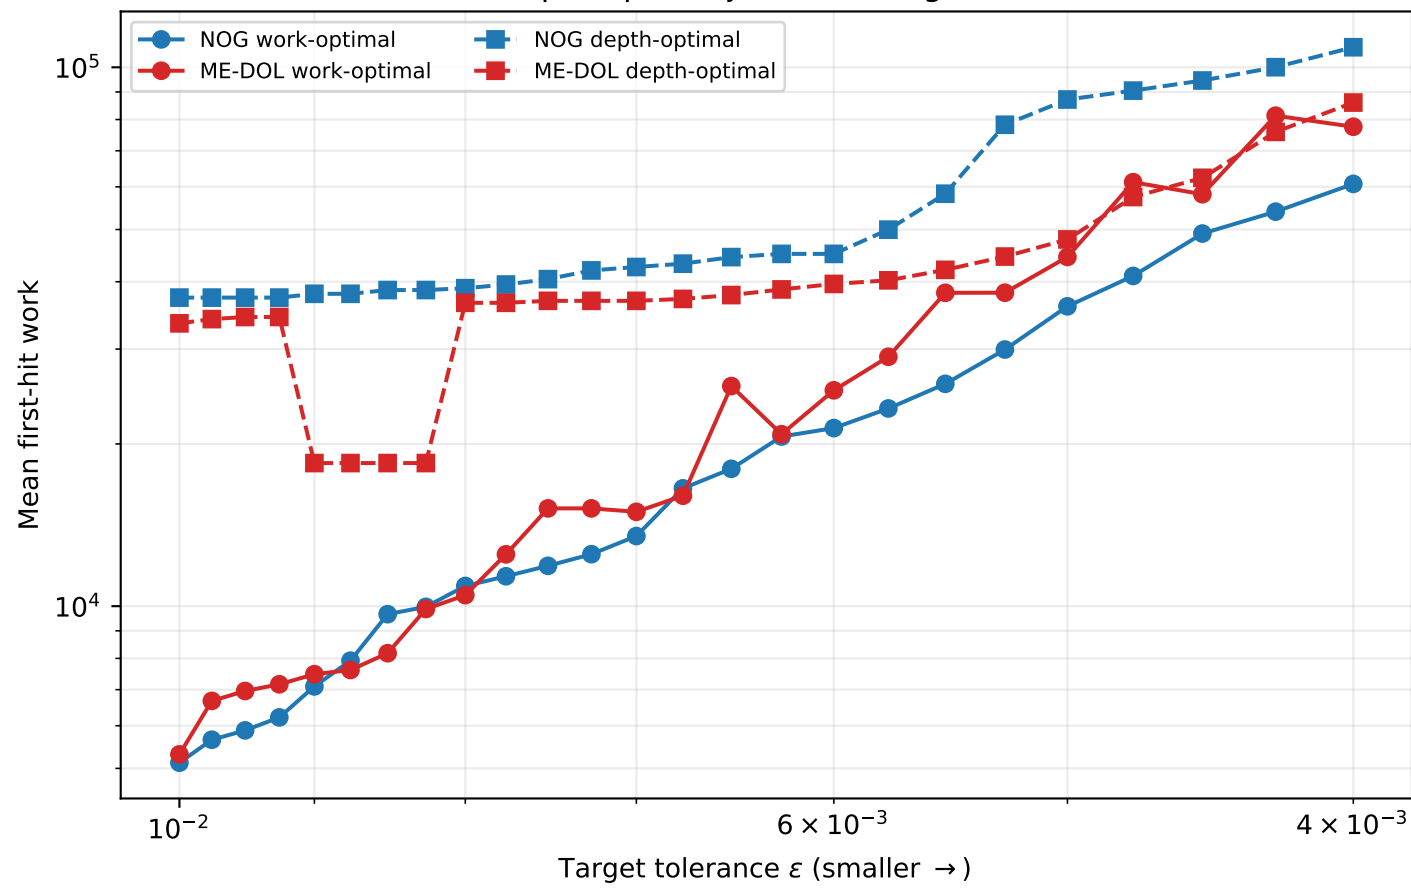

v5 symmetric global configuration: work

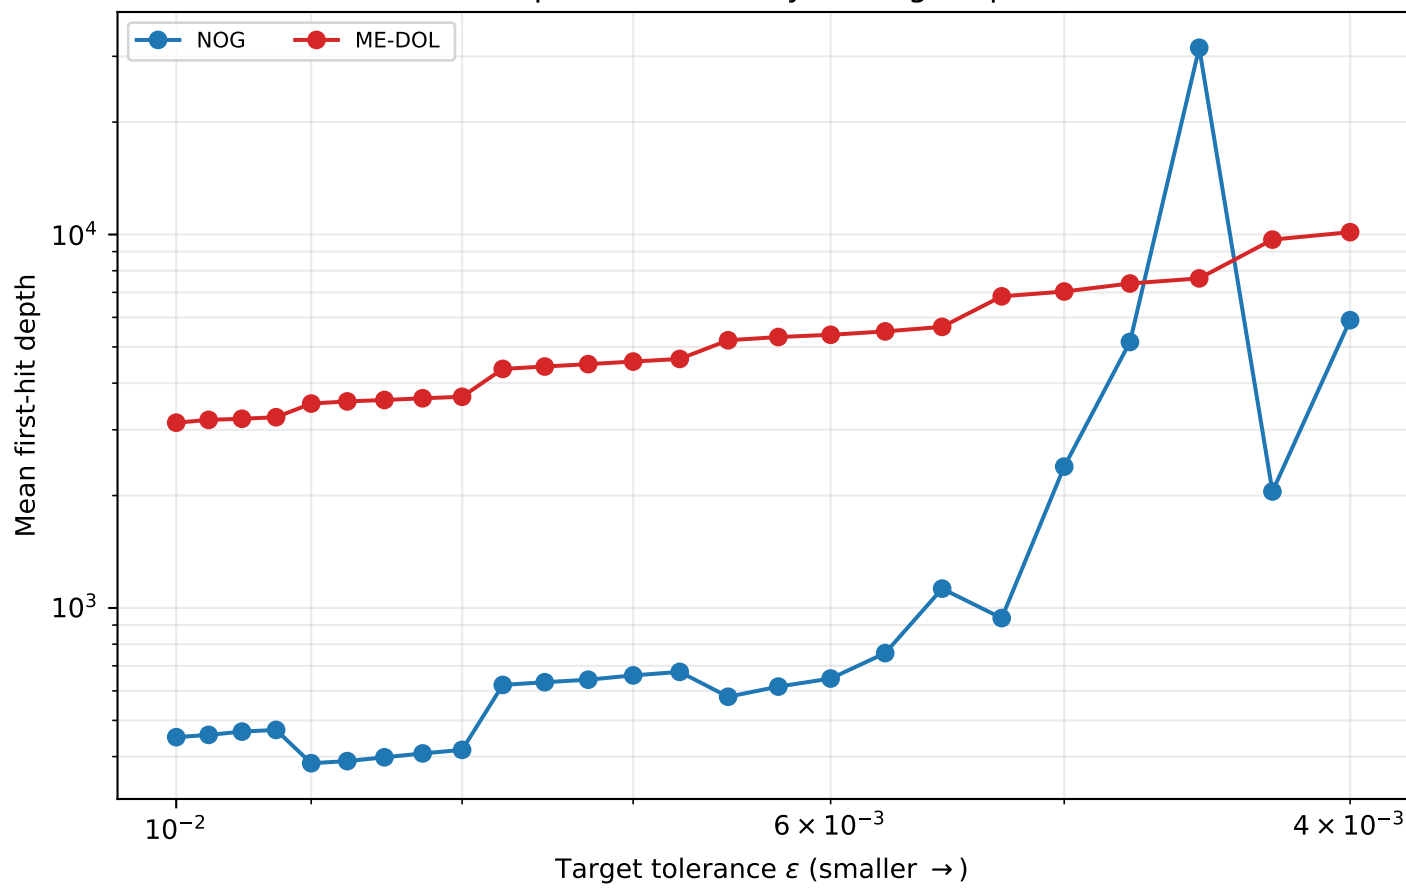

v6 per-epsilon joint retuning: depth

v6 per-epsilon joint retuning: work

v7 piecewise theory scaling: depth

v7 piecewise theory scaling: work
